Subject: Meeting(s)

Sorry we have not connected. I appreciate your can do approach. I have hurt my lower back and have been up and down for several days. This has complicted my schedule tremendously.

Having heard from Don at the October 20th briefing I cannot imagine what change I could make at this point that would faciliate either Bruton or the Laureland deal. I feel we did what was asked of us along the way particularly the last minute new homes issue.

Don does not know me well and that is my problem. For example, he said publicly Odyssey had no SF experience. Assuming he was talking about the erect housing structures, I told him we did not undertake that end of the business by choice for many months at many times along the way.

Assuming he is talking about the SF lot development he is totally wrong. The last sub division I was an owner of and developer in Dallas County was in Addison, Bellbrook Estates on Beltline and Prestonwood. Emmitt Smith bought my partners individually owned lot and built his house there on Wynnewood Lane. Our group was the Bellbrook JV. We sold the entire lot development to Micky Munir, Sharif Munir Davidson, who has built most all the homes in the sub division. Average Price +-1.75 million.

I also did several large lot development land projects in Tampa Florida on the north area of town near I-275 and County Line road. This area is known locally as Lutz. Call me or e-mail me with your suggestions. Frankly, I think he has changed his mind and that is beyond my control. My company is taking an enormous hit financially. Thankfully we are blessed, with other developments in other communities in Texas. So the glass remains half full for us not half empty.

Thanks,

Bill
